## Southern New England Stumpage Price Report 4<sup>th</sup> quarter 2007 comments

- [Selling Timber ::](#)
- [Harvest Objectives](#)
- [Important Considerations](#)
- [Choosing Someone to Work With](#)
- [Choosing Not to Harvest Timber](#)
- No lots bid on last period. The market seems to have bottomed out
- The market sucks
- Not many lots available
- Does anyone else think that this industry is in trouble??
- I heard that cherry has also dropped significantly towards/within the Berkshires. The markets are squirrely big time and will likely be that way for longer than most folks want ♦
- Down, down, down
- Lumber prices way down
- Currently not logging
- Dismal market, no end in sight; fuel keeps going up; firewood market flooded. Definitely not in it for the money.

- Cannot make enough firewood to satisfy
- Nothing to report; land clearing work only
- Lumber markets for all hardwood species continue to decline
- Nothing ❖❖good to report
