

Southern New England Stumpage Price Reporting. 4th quarter, 2013.

Comments:

- I've subtracted my fees from these sale prices. I didn't in the past, but that wouldn't compare fairly with the prices from loggers, sawmills, or industrial foresters. If you have any questions please feel free to call or email.
- No lots this period. Nobody is marking timber. State and MDC not marking wood. I think they are afraid of the man from Northampton that complained about logging.
- Oak stumpage has moved up strongly
